EDITOR'S NOTEBOOK

Dear Archie Readers,

I've been receiving a lot of mail asking about the Archie Newspaper Strip. It seems that many of you would like your newspaper to carry the Archie strip. Well, here's a suggestion that might help a comics editor decide to run Archie in his newspaper. Find out the comic editor's name at your newspaper, or just write to: "Comics Editor" (c/o name of newspaper and address). Let the editor know how old you are, where you live, how much you enjoy reading Archie comics and why you would like to see Archie in the paper. If a newspaper receives enough mail from their readers requesting a comic strip, they just might consider it. Should the editor respond to your letter (most editors will respond) let me know what they say. The reason I'd like to know is, I'm just nosey.

Just as a reminder...**IT'S TIME FOR SUMMER VACATION!** And what better way is there to celebrate than by purchasing your copy of BETTY & VERONICA'S SUMMER FUN #4. In this 48-Page Giant Special, Betty and Veronica's friendly rivalry starts to sizzle when they learn that hunky Brett Brantly, Olympic volleyball player, is judging a women's volleyball tournament. "Volleyball Vendetta" serves up a lot of fun and excitement. You'll find it on sale July 8th, or look for our Summer Fun ad appearing in Archie titles on sale this month.

Let's not forget everyone's favorite witch, Sabrina. "Driving Me Crazy" (that's the title of this story) is what happens to Sabrina when her aunties offer her driving lessons in their 1922 clunker. Will she be able to pass her driving test and get her license without using her magic powers? Or will she get her license without taking a test? How about she passes the test and loses her license? What if Sabrina passes her test, gets her license and loses the car? You'd better pick up a copy of SABRINA THE TEENAGE WITCH #5 SEPT.(on sale July 8) and find out for yourself....it's DRIVING ME CRAZY!

Please write your letters, good, bad or otherwise to: Victor Gorelick, Editor
ARCHIE COMIC PUBLICATIONS, INC., P.O. Box 419, Mamaroneck, NY 10543-0419
Or you can E-MAIL me at VICTORGARCHIECOMICS@COMPUSERVE.COM

M&M's MOUTHFUL OF MINIS GAME

Think putting an "M&M's" MINI in this mouth is as easy as putting one in yours? Then give it a try, chocolate breath. First, pick out an "M&M's" MINI, and place it behind the yellow dotted line. Then, lightly flick it into the mouth. If it stops inside the mouth, you get to eat 20 MINIs. You've hit the chocolate jackpot! If it stops on any part of the tongue, you get to eat the amount of MINIs specified. And if it doesn't land on anything, put it back behind the line, and let the next player go. What!? It went up the nose? Yuck. Don't eat it. Put it in a pile, and save it for your little brother. Continue until all the MINIs are eaten.

Saturn

Saturn is the second-largest planet in our solar system. Viewed through a telescope, it is rich and creamy looking -- a yellowish color. Nobody can live on Saturn because it is very cold. Saturn is mainly made up of two gases, helium and hydrogen. It has a core of silicate. It has 3 rings made of tiny particles, probably formed from the breaking up of a moon. The rings are about 10,000 miles wide with a huge gap between rings 1 and 2 called Cassini's Division, named after the astronomer who discovered it. Saturn was named after the ancient god of agriculture and the rings were discovered by Galileo. Saturn has 10 moons, the largest is Titan. Janus was most recently discovered.

Skunks

A skunk is a small, furry animal with distinctive black and white markings. A skunk sprays a liquid called musk that comes from a pair of glands near the base of its tail. Before it sprays, the skunk gives a warning of growling, hissing or stamping its front feet. The skunk can spray as far as 12 feet! Most striped skunks grow to 13-18 inches long and 3 to 10 pounds.
